

Sabrina Staniewska

UX Strategist | Service Design | Customer Journey Mapping & Service Blueprinting

Professional Summary

15+ years as a UX strategist and service designer across research, service design, and innovation leadership, with sustained work in financial services and regulated pharma environments. I specialise in customer journey mapping, service blueprinting, and stakeholder workshop facilitation – from discovery through low-fi and high-fi prototypes. I run research and client workshops hands-on and lead delivery teams, translating findings into decision-ready CX materials.

Core Competencies

Customer Journey Mapping · Service Blueprinting · Low-Fi to High-Fi Prototyping · Stakeholder Workshop Facilitation · Usability Research Planning · Qualitative & Quantitative Research · Design Thinking · Financial Services & Regulated Environments

Professional Experience

Group Senior Innovation Expert & Coach – Ringier

March 2023 - 28.02.2025

- Coached 80+ product, design and innovation professionals across 110 companies in 18 countries in UX research and evidence-based practice.
- Built structured experimentation that cut average time-to-decision from about 3 months to under 4 weeks; redirected or closed 40% of low-value projects early on validation evidence.
- Presented research and pipeline findings directly to the board, turning them into portfolio decisions.
- Organised 20+ workshops and roundtables on validation and method adoption; designed and ran a 3-day bootcamp for seed and scale-up teams.

October 2019 - January 2022

Senior UX Lead & Service Designer → IT R&D Expert & Innovation Operation Manager – Roche

- Led service design work on customer- and employee-facing journeys in a regulated pharmaceutical environment.
- Facilitated co-creation workshops and mapped end-to-end journeys, turning ambiguous research and business requirements into design decisions.
- Worked with Product Management, IT and Business Process Owners so future-state design fit delivery and compliance constraints.
- Co-designed a cross-divisional research and decision-making process and presented findings to senior architecture leadership across four global divisions.
- Co-led the InnovationLAB, embedding structured, evidence-based practice into R&D.

January 2016 - October 2017

UX Consultant – ADMD (Roche Global IT Solution Centre)

- Hands-on UX design, research, and usability testing to design and deliver a Google Workspace migration across the pharma organisation
- Worked within Scrum with development teams to design and deliver UX changes to the COBAS Field Service Platform (Salesforce), building tools for field service technicians
- Designed, prototyped, and shipped Peeps, an internal org-chart and contact-directory Chrome extension, from concept through to delivery

UX & Service Design Consultant — ING, AXA, Allianz & Raiffeisen

October 2017 - October 2019

- Led end-to-end service design engagements, from discovery through to delivery, for ING, AXA, and Raiffeisen.
- Designed research plans and ran them hands-on together with the teams I was coaching, rather than delegating research entirely.
- Mapped customer journeys, service blueprints, and ecosystems, combining digital, automated, and human touchpoints.
- Facilitated workshops to align user needs, business objectives, and technology constraints across cross-functional teams.
- Delivered evidence-based recommendations that measurably improved customer and employee experience outcomes.

Earlier Career Snapshot

Career began in interactive and **digital agencies as a UX designer**, building foundations in human-centred design and research. Time as **Art Director at TBWA Poland**, and later as **UX/Service Design Lead at VML Poland**, added pitching, storytelling, and stakeholder communication skills that carried into every client-facing role since.

Mentored 10+ startup teams through Google for Startups — coaching founders in customer discovery, user research, and validation methods informing funding decisions exceeding €250,000 per team.

Coached founding teams at the Warsaw University Incubator and ran Design Thinking workshops for early-stage student teams.

Co-founded Ladies that UX Warsaw (100+ women); co-host of the UX Basel meetup.

Koleo rail booking usability study: 6 participants, 3 personas (sabinadesigns.ai/casestudy-koleo).
